Break of collective wage negotiations between LO-Norway and NHO

LO has today, Thursday 25th of March, broken off negotiations with NHO in the interim settlement for 2021 and notified the termination of agreement and walkout for 179 002 workers.

This will be notified the State Conciliator today.

"We have tried to come to an agreement in the negotiations, but unfortunately it was not possible. In our opinion it was a lack of negotiating spirit at the bargaining table from NHO that led us to break the negotiations," says LO-Norway's leader Peggy Hessen Følsvik.

The parties will meet for mediation April 9th with mediation expiration April 10th at 2400.

The extent of a possible conflict will be reported to the State Conciliator and NHO on April 6th. Companies not affiliated to NHO with single attached collective agreements will not be included.
